

**Dr. Jeffrey D. Thompson, D.C., B.F.A.** is recognized as a worldwide expert in the field of brainwave entrainment frequencies incorporated into musical sound tracks. A consummate musician and composer in his own right, he has established a method for using modulated sound-pulses for Brainwave Entrainment for changing states of consciousness for optimal "Mind-Body" healing. He continues to compose music and soundscapes, to treat patients, to further the use of sound in a scientific manner through on-going research, and to develop scientific sound delivery systems for maximum results. He is an educator and fascinating speaker and speaks widely on the use and benefits of Scientific Sound for stress reduction, relaxation, sleep enhancement, learning remediation and mega-learning, creativity and peak performance, meditation and ecstatic states of consciousness.

### Fortune 500 Companies and Private Consulting

Dr. Thompson's clinical work has also led to the development of programs and consultation work for Fortune 500 Companies like Cisco, Nike and Mattel. These programs are designed to boost creativity, lateral thinking and "out-of-the-box" new and original solutions and product design. Dr. Thompson's work with group creativity at Mattel was featured on the front page of the business section of the Wall Street Journal. These programs empower employees and boost bottom lines.
